

Supplemental Application for Air Monitoring Specialist

Instructions: Please respond to each of the following questions. Type or print your responses on 8-1/2" x 11" paper with a font size of no less than 10 point. **Please limit your responses to a page per question or part.** This information may be used to identify applicants with the most directly relevant experience, education, and training to continue in the selection process. Do not combine your responses or reference your application or resume to answer a question.

Please be advised that the information you provide will be evaluated "as is" and incomplete, vague, or illegible responses will likely receive lower ratings. Therefore, it is very important to provide concise, organized, and easy-to-follow responses to each question.

1. Describe your education, training, and experience applicable to this position, including the operation of environmental sampling equipment and the development of written procedures, policies, and/or plans. If you have specific experience in air monitoring, please include this information.

If you do not have a background in environmental monitoring, then describe your experience maintaining other types of electrical and mechanical equipment and any relevant computer experience. Include any troubleshooting and problem-solving experience.

2. Air monitoring involves significant outdoor work and physical labor. Describe your experience deploying equipment outdoors and any construction and/or building maintenance experience.
