

MONTEREY BAY AIR RESOURCES DISTRICT
MEMORANDUM

Asbestos Consultants, Laboratories & Landfills

The following list of consultants and NVLAP certified laboratories is provided for information only and is not a recommendation of any kind. It is not comprehensive, representing a limited number of sources. Please consult your local listings for up to date information on all possible contractors and laboratories. Some local landfills will accept non-friable/non-hazardous asbestos waste. Please contact your local landfill for information on the types of materials they can receive.
